For formal documents

Use wordmark-black.png in Word, Google Docs and document headers.
Use SVG or vector PDF for scalable artwork and professional printing.
All logo letterforms are paths; no font installation is required.
A width of 45-55 mm is a practical starting point for a document header.

Current website colours

Keep it clear

Keep the original proportions and allow one lowercase o height of clear space.
Use black on white for small placement, printing and photocopying.
Use white or reversed colour artwork on a dark, plain background.
Choose colour artwork only when it remains clear at the intended size.

The wordmark is reconstructed from the actual website font, weight and tracking.
This pack contains artwork only and does not establish trademark rights.
